I have done my 1<sup>st</sup> semester Field work at Kalinga Vihar, ward no, 23 of Capital City of Odisha from 22<sup>nd</sup> Feb to 31<sup>st</sup> March 2021. I hereby declare that all information and details mentioned in the report are true and correct in the best of my knowledge.

Place: Kalinga Vihar

Date: 15<sup>th</sup> March 2021

Yours Sincerely

Mr. Amit Kumar Digal

### **ACKNOWLEDGEMENT**

With great pleasure, I take this opportunity to acknowledge those who guided,

helped and supported me during this fieldwork. I wish to express my deep sense of gratitude to our supervisor Mr. Pradeep Jare, whose concern guidance and valuable advice helped me to complete this work. I express sincere thanks to Dr. Suresh Pathera, Head of the department and all other faculties for their guidance and support during the field work days. Also organizing such a platform to learn more. I am thankful to those who helped me directly and indirectly to complete this fieldwork and to make it a success.

## INTRODUCTION

As part of curriculum for the accomplishment of Master's degree in social work, the students have to do one month field work at own community. The purpose of the field work is to use the classroom learning in to the practical world. It is helping the students to adjust with the practical environment.

- Name: Amit Kumar Digal (2020MSW004)
- Name of the fieldwork supervisor: Mr. Pradeep Jare.
- Duration of fieldwork: 22<sup>nd</sup> Feb 2021-31<sup>st</sup> March 2021.

In this report I am summarizing all the activities and assignments were done during my 1<sup>st</sup> semester Filed Work.

## The context of the field

Name of field: Kalinga Vihar

District : Khurdha

State : Odisha

It is a part of the capital city of Odisha and comes under the ward no-23 of Bhubaneswar Municipal Corporation. Which is having 12240 population and spread over the 894 hectares of land according to 2011 Census data. This society is urban setup of society, which is having good hospital, schools, transportation facilities, police station etc. Because this society comes under the capital city of Odisha in this we found different religious people, cultural people and occupational people as well.

### **Assignments and activities:**

- 10 Observation Visits of the GO's & NGO's.
- Situation of Covid-19 in your surroundings.
- Profile of the community.
- Working with individuals.
- Working with families.
- Creating awareness about covid-19.
- Making of Video Presentation.

### **Observation visits**

Before the field work student were asked to visit at least 10 Organizations which are working for the betterment of the society. Purpose of this assignment was to understand the works and the process of working for the betterment of the society. In this I had visited more than 10 Govt. and non-govt. organizations.

**Challenges:** while having the observation visits I found that there were no cooperation by the office of the organizations, for which I struggled a lot. Also I found

some of the fraud agencies, which are only, exist in the websites but not in reality. From some of the agencies I was not given needed information because they use to give me the booklet and asked to read and get information from that, which was not that good to get all the information.

**Leanings:** With these observation visits I got the location of the agencies which are available in our city. I also learnt about the process of working with others in the society and the helping activities carried out by the agencies. Also I started to built the communication skill.

Name of the Agencies visited by me:

- DDU-GKY
- Subhadra mahatab seva sadan
- Society for Nature, Education & Health
- National Institute of Social work and science
- Help Age India
- HARSHA TRUST
- Save the Children
- Old Age Home
- Madhyam Foundation
- Society for Childern

## Assignment-1

### Covid-19 situation in your Surrounding

- Part-1: situation of Covid-19 in my surrounding
- Part-2: Impact of Covid-19 on various section of society.

**Learning:** From the 1<sup>st</sup> part of the assignment I received the exact report and the situation of the covid-19 in my surrounding. Also learn that how to get such information. From the 2<sup>nd</sup> part I came to know that how people have suffered during in pandemic period and what were the main problems faced by them. This assignment also helped me to follow the guidelines and precutation in the field work activities.

## Assignment-2: community Profile

The main objectives of the assignment were done in parts:

Part-1: Demographic Information

Part-2: Historical and Social Aspects

Part-3: Economic and Political Aspects

Part-4: Social and Resources Mapping

I have done all these assignments in the given period of time. I felt this assignment was interesting to do, because with this assignment I started to learn more

and unknown facts of my society where I live.

**Challenges:** while working with these assignments I faced some challenges like in the beginning I was not able to get all the exact information from the websites and also from the elderly people in the society. Every individual I talked I received different information. At last I planned to visit Municipality office which is 20 km fare from my area. And I happened to visit it 3 times to collect all the information. There was lack of cooperation as well.

**Learning:** With this assignment I received much information that I did not know before like the historical aspects of my society, available resources in the society etc. after completing the assignment now I have the enough idea about the society.

## Assignment-3: working with individuals

Part-1: Identifying cases

Part-2: Genogram

Part-3: Problem Tree analysis

Part-4: Objective Tree Analysis

Part-5: six days intervention plan

In this assignment I have worked with three individuals those who were affected by Covid-19 pandemic situation.

Case-1: was a 12<sup>th</sup> pass out student. Who was not able to write his examination on time due to which his result declared in late and the client was not able to get admission

on his interest area.

Case-2: was a 10<sup>th</sup> class student who was not having interest in the online mode of education, due to which having anxiety and depression.

Case-3: was a school dropout student at 10<sup>th</sup> class. Due to the pandemic situation he failed and lost his interest in education.

**Learning:** before the field work I was taught on case work and also had worked with some individuals. But in this assignment I was guided with the step by step process, which helped me a lot to get the overall information about the clients. With this I came to know the steps that how to get step by step information.

Used skills: Communication, Observation, Active Listening, Intervention etc.

Used Techniques: Reflective Discussion, Motivation, Correcting Perception etc.

Used Tools: Intake, Case Work Interview, Home Visits, and Communication etc.

Used Principles: Acceptance, Communication, Non-judgmental attitude and Client self determination.

## **Assignment-4: working with Families**

Step-1: Identify three families

Step-2: impact on economic situation

Step3: Impact on Social Interaction

In this assignment I have worked with the three families those who were affected by covid-19 pandemic situation.

Family-1: Head of the family was an Auto driver and driving the Auto was the only

source of income in the family. So the family was severally affected in financial sector. Also the head of family's marriage date was appointed and all 70 percentage of preparation were done, but due the shutdown and lockdown permission was not given for the marriage.

Family-2: Father of the family was a migrant worker and the mother was working in the school as a care giver for children. Father of the family was staying in the different part of the Odisha and he was stuck for 5 months and mother was not given full salary which lead them to depression, because they have three children and all are studying.

Family-3: The head of the family was a govt. servant. While working he was affected by the covid-19 and passed away. The dead body was not given to them and because he died due to covid-19 the family was looked down and was not cooperated by the neighbors and other relatives.

**Learning:** while working with these three families I came to know that how people were affected by covid-19 situation and the pain they have gone through. How they have financially and socially affected due to covid-19 situation. Also in this assignment I have practiced some skills, techniques, tools and principles which were taught in the class.

## **Assignment-5**

### **Creating awareness about covid-19**

While working with this assignment I took a hand washing program with the children of our Church. Also I gave them information about the importance of wearing of mask in the present period of time. Also I visited the WHO website to gather valuable information about guideline etc. All the information was about children and this

information were circulated among the 6 mother by phone call.

Also I painted some of the posters regarding the covid-19 awareness- like hand wash tecqunic , mask wearing tecqunic, precutation and guidelines need to follow while going outside from the home etc. and these posters were circulated in the social media, people appreciated for the same.

## Assignment-6

### Making of Video Presentation.

The last assignment was on the making of video presentation in order of present all the activities and assignments were done during the field work.

**Learning:** with this assignment for the first time I tried to make such kind of video presentation. In the beginning I struggled a lot to find a way for the same, and then I started to learn from the YouTube and possibly made a video presentation. And could able to present all my field work activities and assignments.

## CONCLUSION

I have successfully completed the 1<sup>st</sup> semi. Field work in my own community where I live with the supervision of field work supervisor Mr. Pradeep Jare from 22<sup>nd</sup> Feb-31<sup>st</sup>

March 2021. With this field work I am able to achieve the main objective of the field work.

## LEARNINGS

I have learnt more about the field work, because I was only heard about the field work but never experienced it. It was for the first time I have come to such term. I improved the practical skill and also achieved communication skills. With this field work I have learnt more about my own society where I live. Also I have improved the confidence level while working with all these assignments. I have realized the strength and weakness that I have posed and learnt to apply the social work principles into the practical level.
