**Vaccination
awareness
and Covid-19
third wave
awareness
program in
Waiduvadi
Community.**

Organize the Blood donation camp in Balasaheb Deshpande Hospital with Social work students.

- **Observations =**

1. There were people in some slums, people living in slums, people sitting in the garbage and eating their food. If there is sewage in the house the women are throwing it on the road.
2. It is very important to have a health awareness program there because the women who are there do not seem to care about their own health.
3. There were more and more women going out in search of work. Most of the male congregation in that place is addicted.
4. Since women go out for this work, their children are not given any attention, which means they spend the whole day in the villages and roam the surrounding areas.
5. There were a lot of problems with the health of little girls. Such women who commit domestic violence are found in that place.

- **Learning =**

- 1) Counseling
- 2) Control emotions
- 3) Problem Identifying
- 4) Problem solving skill
- 5) Adviser skill
- 6) Group together, so what is dissolution making, group bond, scap goating, Interaction, cohesiveness, rejection were learned
- 7) Learned how Non - Judgment Attitude
- 8) Social action
- 9) Motivation and clarification techniques using the field Community organization
- 10) Correcting perception
- 11) Modeling
- 12) Anticipatory Guidance
- 13) Five Components
- 14) problems identify skills

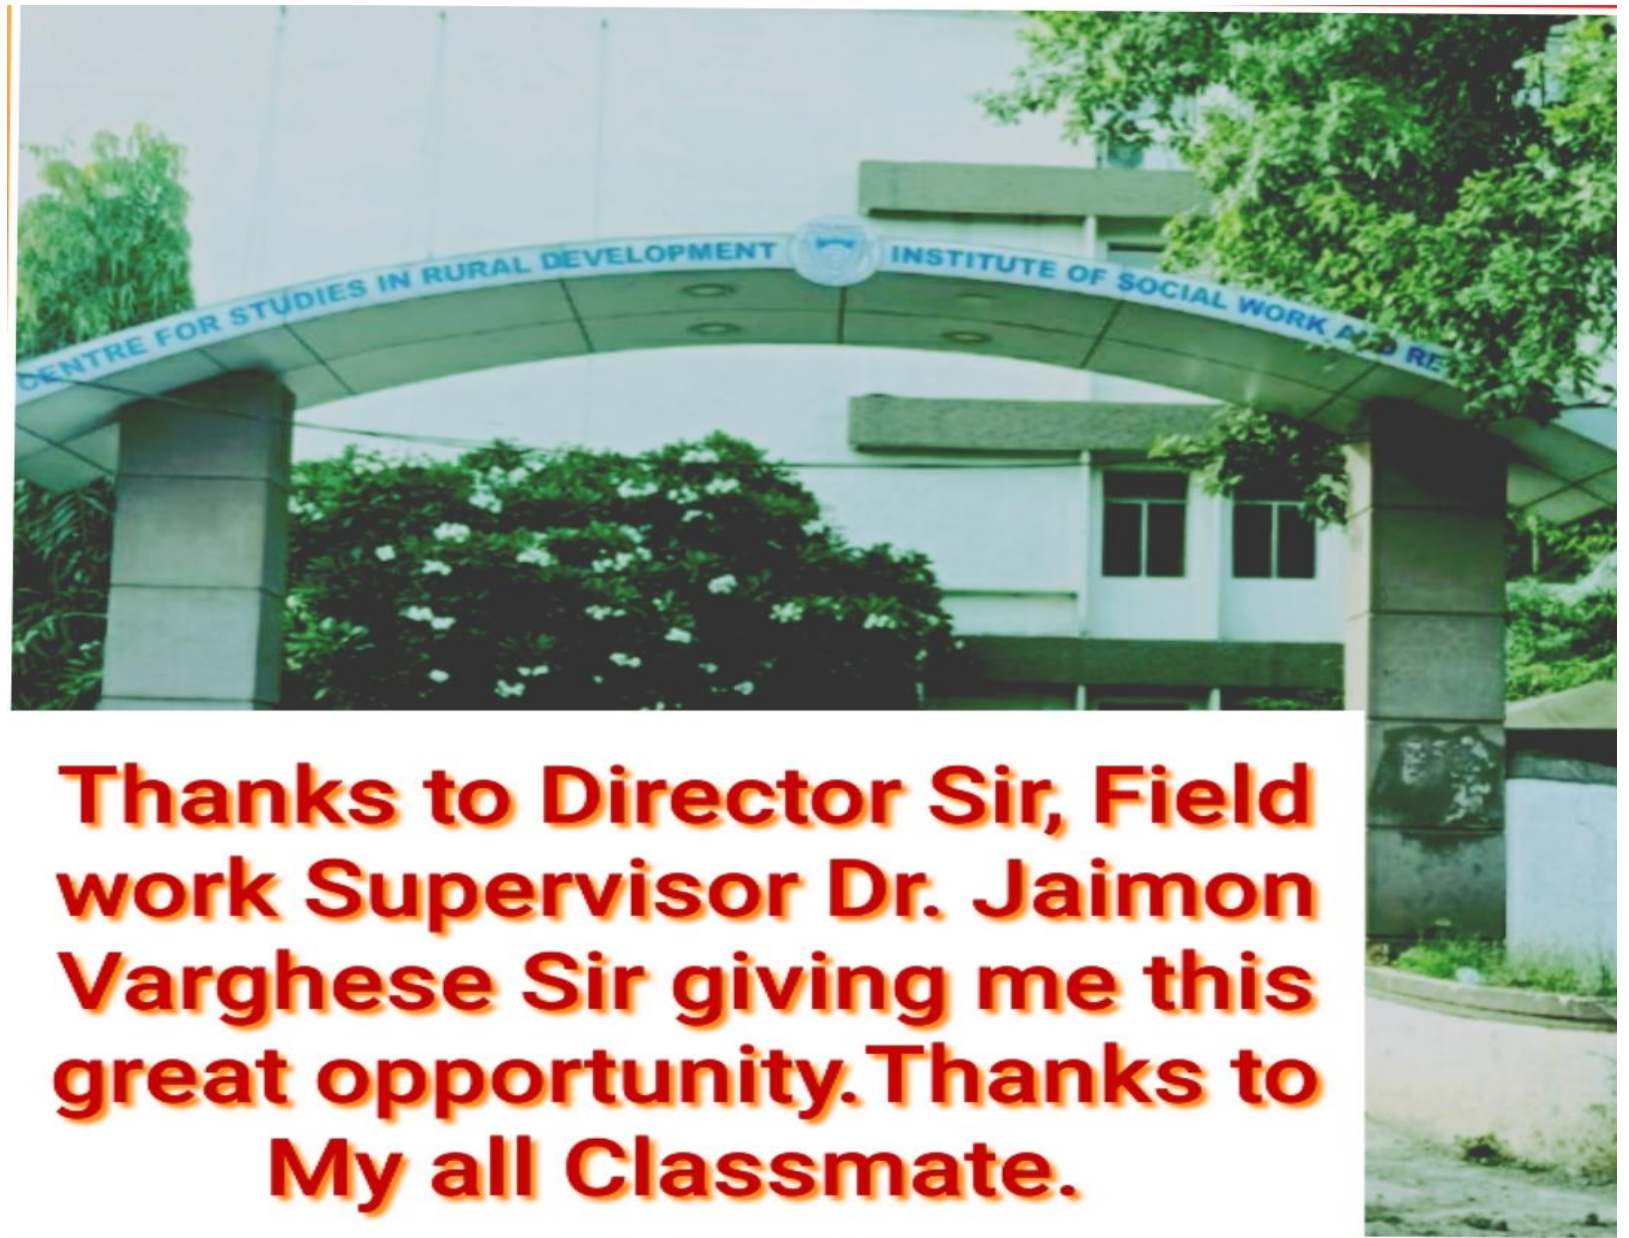

- **Challenges =**

1. Challenge on how to follow up the work done in this fieldwork to the professional level.
2. It was a big challenge to control the emotions after seeing the critical situation in that place after going on a home visit.
3. How to fill loan form on online portal. Explain about the child to the mother of the disabled child and Counseling.
4. Then the question arose as to what questions to ask them according to the client's mood at the station where they are studying with the client online How to do it and how to submit it online to the portal was a big challenge.
5. Counseling the woman who has the history of the woman in the counseling session.
6. Community Organizations in the community.

- **Impression =**

- Overall impression about field work - The field work has started in a very good way.
- Even during the corona period, I got the opportunity to work in such a place, I was well supported by the Gram Panchayat and the villagers in the village where I was sent to do field work.
- They helped me a lot to work in the village. All the people in the village understood me and understood my work, and helped a lot to do those works practically in the village Anganwadi worker and Asha worker from the village helped me a lot, I got to know a lot of information from them. All the officers in the Panchayat Samiti taught me how to do official work and how to do every work.
- In the field work, people got to know the needs and problems of the people.
- We understood what social work intervention was in the community and how we should work and worked on it.

**Thank's for
watching
this
presentati
on** 😊

**Thanks to Director Sir, Field
work Supervisor Dr. Jaimon
Varghese Sir giving me this
great opportunity. Thanks to
My all Classmate.**
